

Disability Peterborough

Good morning

With the new lockdown that came into force Thursday, I wanted to reach out and let you know that we will do whatever it takes to support as many physically disabled people that we can in Peterborough.

Lockdowns can be a frightening and lonely experience, if you or anyone you know, would benefit from a weekly wellbeing call then please let us know, either call us on **01733 265551** or email us at info@disabilitypeterborough.org

Our advice line is open on the same telephone number so if you have any problems, issues, or general queries our fully trained and experienced advisors are ready to take your call. Our specialist benefit workers are also still providing a full service so please do not hesitate to get in touch.

Our Handyperson service is still operational to help you with any household needs such as changing lightbulbs or doing small repairs. The service is free of charge and is carried out in a Covid safe manner.

We can also offer help with shopping and medications if you feel unsafe leaving your house. The NHS are recommending having a small supply of paracetamol and ibuprofen handy in case of illness. If you don't have any in and find it difficult to get out or order online, then again just give us a ring and we will do our best to help. We know that boredom can be a problem and we have a good supply of jigsaws that we can deliver along with puzzle books etc.

Please remember we are only a phone call or email away and are ready to respond to any requests for help either big or small and we will do our absolute best to support you.

Stay safe

Best wishes

Sandie Burns CEO and all the team at Disability Peterborough
